# Environmental Engineer

Support the Directors and Senior Engineers in the detail design and coordination of Civil and Environmental projects. Responsible for the execution of ECM (Erosion Control Measures) and ABC ( Active, Beautiful, Clean waters) design involving the preparation of report and liaising with drafters on related submission drawings in accordance to customer specifications, applicable codes, standards and other generally accepted practices.

## Responsibilities

- Perform design calculations, report and submissions on civil and environmental works
- Liaise with drafters on submission drawings pertaining to the above mentioned works
- Support director and team leader on project running
- Co-ordination of projects including submission to local authorities and liaison during the construction stage
- Liaise with clients, consultant, and authorities on technical matters
- Other duties as assigned

## Requirements

- Diploma in Civil and Environmental Engineering
- Independent and organized, with positive work attitude
- Effective team player
- Able to multi-task and work under pressure
- Excellent time management skills

If you feel like you meet the above requirements and would to take on the challenge, please email us your CV and cover letter to [hr\\_egr@ecas.com.sg](mailto:hr_egr@ecas.com.sg).  
We are afraid only shortlisted candidates will be contacted.
